

# r-MicronSolo Roll

Cloth is made from 35% recycled material

## Product Description

r-MicronSolo Roll is Vileda Professional's micronfibre wipe roll made of 35% recycled fibres of post-consumer plastic. Due to its practical roll form that can be used best together with our Roll Dispenser, easy usage and practical distribution of the wipes are guaranteed – ideal for professional cleaners' daily work.

Made from the finest micronfibre, it offers an efficient and quick streak free cleaning and even removes stubborn, fatty dirt like grease and fingerprints. Due to the efficient removal of up to 99.99% of bacteria and viruses it is especially suitable for healthcare areas, where a high level of hygiene and cleanliness are required. The highly absorbent viscose fibres allow an excellent absorbency to clean big spills in just a single wipe. The new recycled wipe Roll is perfectly suitable for health care applications as well as for General Building Cleaning or hotels.

## Application area

The advanced micronfibre technology promises rapid and effective cleaning of high-risk areas. Even delicate materials such as glass or ceramic can be cleaned with r-MicronSolo Roll without leaving any damage or marks. Due to the excellent absorbency of the r-MicronSolo Roll cleaning cloth, big spills and stubborn dirt like grease are cleaned with ease. The new recycled wipe Roll is perfectly suitable for health care applications as well as for General Building Cleaning or hotels.

## Advantages

- Maximum hygiene due to single-use
- Practical distribution of wipes
- Can be used with our Roll Dispenser for easy handling

- Certified removal of 99.99% bacteria and viruses just with water
- Superior micronfibre technology for advanced cleaning performance
- Made from 35% recycled post-consumer plastics
- Very good spill pick up due to high absorbency of viscose fibres
